RE: Call Sign KEF715

Dear ~~Mr. Phelan~~ Charles,

The Essex County Sheriff's Department (ECSD) is respectfully requesting a letter of concurrence for the shared operation on frequency pair 470.3375 and 473.3375: Call Sign KEF715. ECSD and the City of Quincy have been co-channeled on this frequency for many years. Recently, due to personnel changes at the ECSD the window to renew the license had lapsed and upon Request for Renewal, the FCC is requiring a signed statement from the City of Quincy for continued shared use of these frequencies.

These frequencies provide the central means of communications for the ECSD personnel and are vitally important for radios to effectively operate in their service area to protect lives and property. Both the City of Quincy and the ECSD have co-existed on these frequencies for years with no adverse operation. We currently have an application pending and are seeking to resolve this issue without delay. Thank you for your time and attention to this matter.

Sincerely,

FRANK G. COUSINS, JR.
Sheriff

NOTICE OF CONCURRENCE TO SHARE FREQUENCY WITH ECSD

The City of Quincy agrees to share use of channel 470.3375 and 473.3375 with the Essex County Sheriff's Department.
