EBI Project #6116000893

Dear Ms. Higgins:

Pursuant to Section 106 of the National Historic Preservation Act, the regulations promulgated thereunder and interagency agreements developed thereto, EBI Consulting, Inc. on behalf of Crown Castle provides this notice of a proposed telecommunications facility installation at the address listed above.

EBI would like to inquire if you would be interested in commenting on this proposed project. Crown Castle is proposing to install a 280-foot self-support telecommunications tower within a 100-foot by 100-foot lease area. Please refer to the attached project plans for complete details regarding this proposed project.

Please note that we are requesting your review of the attached information as part of the Section 106 process only and not as part of the local zoning process. We are only seeking comments related to the proposed project's potential effect to historic properties.

Please submit your comments regarding the proposed project's potential effect on historic properties to EBI Consulting, to my attention at 6876 Susquehanna Trail South York, PA 17403 or contact me via telephone at the number listed below. Please reference the EBI project number. We would appreciate your comments as soon as possible within the next 30 days. Please do not hesitate to contact me if you have any questions or concerns about the proposed project.

Respectfully Submitted,

Stephen J. Forrest

Subject: NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION - Email ID #4496475

Dear Sir or Madam:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the information you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter).

Persons who have received the information that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The information you provided was forwarded to the following Tribal Nations and NHOs. If a Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Declaratory Ruling released on October 6, 2005 (FCC 05-176).

1. THPO & Tribal Anthropologist Dianne Desrosiers - Sisseton-Wahpeton Oyate of the Lake Traverse Reservation - (PO Box: 907) Sisseton, SD - virginia.m.w.oboyle@gmail.com; SWO_TCNS@swo-nsn.gov - 605-698-3584
Details: The Sisseton-Wahpeton Oyate required method of consultation is digitally through our website. http://sisseton.heritageconsultation.com

All projects must be processed through our website. We do not accept paper or emailed submissions.

Our tribe requires the Cultural Resource or Archaeological Survey Reports completed for the project, such as the Class III Cultural Resource Inventory Report if done, or at least a Class I Cultural Inventory if fieldwork was not required. This report should include ALL identified sites within the designated area of potential effect. This includes NOT ONLY the listed and eligible sites; we want the unevaluated, undetermined, and recommended not eligible sites as well.

This report should include the previously located cultural resource designation, distance from the project, and National Register eligibility determination, if a determination has been made. No determination is fine if the site has not been evaluated, but we still want to see the information on these sites. Please include the resource type, such as historic irrigation, homestead, lithic scatter, burial mound, etc.

The Tribe charges a review fee in the amount of $400 for processingeach request, including colocations, since we were not at the table to begin with on these colocation projects, we want to make sure we have the opportunity to look at these now and get that history known.

This paragraph only applies to Positive TrainControl Projects submitting multiple PTC towers using the FCC batching method. The Tribe charges $400 for the first nonexcluded PTC tower in the batch, plus $250 for each additional nonexcluded tower listed under one TCNS number.

Payments can be made by check or money order, made payable to the Sisseton Wahpeton OyateTHPO Office and mailed to PO Box 907, Sisseton, South Dakota 57262. Please include the TCNS in the memo line of your check so that your payment is applied to the correct project.

If you have any questions or need more information, our current compliance officer is Alicia Cloud. She can answer project specific questions and track project payments.Her office phone number is 605 698 8306 and her email is SWO_TCNS@swo-nsn.gov

IMPORTANT NOTES:
"Collocation means the mounting or installation of an antenna on an existing tower, building, or structure.." The Quapaw Tribe does NOT consider a build which will occur off an existing structure a collocation. Ground disturbance is ANY event which will involve ground disturbance. Guy lines, disturbance of previously disturbed soil, the creation of trails to a site, the expansion of a fence are all examples of ground disturbance. ANY instance where the ground is being disturbed is considered ground disturbance.

Correspondence from the TCNS system received after initial filing is not "Automated". This correspondence is generated individually as written by the Quapaw Tribe Historic Preservation Office; using the TCNS system as a delivery method. This message is your notice of what is required by the Quapaw Tribe Historic Preservation Office to receive a determination from the Quapaw Tribe.

Determinations will be issued within 30 days of receipt of review fee payment. Reviews will not be issued or finalized until after payment has been RECEIVED if other arrangements have not been agreed upon. A lack of proper planning, payment, or correspondence by your organization do not constitute an emergency for others. Please do not hinder your client's review period times and cause unnecessary difficulties during the review process by not following the established guidelines and preferences for consultation.
