Re: SHIELDS UNDER FIRE INCORPORATED

Your application is in a dismissal status effective 08/30/2021 without prejudice in accordance with Section 1.934 of the Commission's Rules for the reason(s) indicated below. If you still wish to be licensed, you must file a new application, pay applicable fees, and include all required showings. If you currently hold a valid license, you may continue to operate under that authorization.

If you are currently operating under authority provided by the Commission's Rules based on your submission of the above referenced application, you must immediately cease operation until such time as you come into compliance with the Rules.

Electronic filing is required. For information on how to file an application electronically, visit the website at <http://wireless.fcc.gov/uls>. For additional assistance, you may visit the website at <http://esupport.fcc.gov>. You may also call the FCC at (877) 480-3201 (TTY 717-338-2824). To provide quality service and ensure security, all telephone calls are recorded.

Your application lacked frequency coordination or bore faulty frequency coordination. You must refile an application through your frequency coordinator when you are requesting the licensing of a new station, modifying an existing licensed station, or when you are making any change to information previously coordinated. See Rule Section 90.135 and 90.175. For a list of certified frequency coordinators, you may access the following website <https://www.fcc.gov/general/public-safety-frequency-coordinators>.
