Waivers/Conditions:

Fixed BAS and Low Power Auxiliary Stations in the UHF TV band are licensed on a secondary basis to existing and future primary operations and cannot cause harmful interference to primary operations nor claim protection from harmful interference from primary operations. In accordance with the spectrum provisions of the Middle Class Tax Relief and Job Creation Act of 2012 (the Spectrum Act), broadcast TV channel assignments could be reorganized and some UHF TV spectrum (470-698 MHz) could be allocated for flexible use and assigned by competitive bidding. These future assignments to primary licensees could require all existing and future BAS and Low Power Auxiliary stations to stop existing secondary operations and/or to change frequencies or bands at their own expense.
