Conditions:

Pursuant to §309(h) of the Communications Act of 1934, as amended, 47 U.S.C. §309(h), this license is subject to the following conditions: This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term thereof nor in any other manner than authorized herein. Neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934, as amended. See 47 U.S.C. § 310(d). This license is subject in terms to the right of use or control conferred by §706 of the Communications Act of 1934, as amended. See 47 U.S.C. §606.

Waivers/Conditions:

The frequency and power authorized herein are subject to modification without hearing if, in the opinion of the Commission, such action is necessary. This facility is to: 1) Transmit continuous carrier wave. 2) Repeat station identifier continuously with minimum practicable interval between repetitions. Optimum speed of transmission to be on the basis of twelve identifications per minute, or one identification each five seconds.

Characteristic, steady carrier frequency 249 kHz.

Coordinates have been adjusted, per the FAA.
