City: Houston County: HARRIS State: TX
Lat (NAD83): 29-44-46.0 N Long (NAD83): 095-21-41.0 W ASR No.: Ground Elev: 18.0

Conditions:

Pursuant to §309(h) of the Communications Act of 1934, as amended, 47 U.S.C. §309(h), this license is subject to the following conditions: This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term thereof nor in any other manner than authorized herein. Neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934, as amended. See 47 U.S.C. § 310(d). This license is subject in terms to the right of use or control conferred by §706 of the Communications Act of 1934, as amended. See 47 U.S.C. §606.

Waivers/Conditions:

Beginning January 1, 2013, this station must operate on channels with a bandwidth of 12.5 kHz or less, or with equivalent efficiency, regardless of the emission bandwidths set forth on this license. See Section 90.209(b)(5) of the Commission's Rules. Note, however, that the narrowbanding requirement does not apply to specific channels designated in Rule 90.20 or 90.35 for paging only.

Grant of the request to update licensee name is conditioned on it not reflecting an assignment or transfer of control (see Rule 1.948); if an assignment or transfer occurred without proper notification or FCC approval, the grant is void and the station is licensed under the prior name.

This authorization is issued under the condition that harmful interference will not be caused to Federal government stations. - NOTE: Federal government stations may be transitioning to narrowband operations and most are required to do so by Jan. 1, 2005, i.e., operating 12.5 kHz bandwidth equipment--in some cases using center frequencies "offset" 12.5 kHz from your center frequency(s). Federal government stations are licensed by the National Telecommunications and Information Administration (NTIA). For information on the Federal government's transition to narrowband operations, go to NTIA's Office of Spectrum Management home page at: <http://www.ntia.doc.gov/osmhome/osmhome.html> Non-Federal licensees should note that operation of "25 kHz equipment" increases the likelihood of causing interference to Federal government stations. If interference is caused, non-Federal users must cease operating and modify operations so as not to cause harmful interference to Federal government stations.
