CONSTRUCTION/COVERAGE DEADLINE
NOTICE OF LICENSE TERMINATION PENDING STATUS

ATTN: JOHN BLACK
SPECTRUM LICENSE CONSULTANTS, INC
PO BOX 54137
LUBBOCK, TX 79453

Date: 10/04/2006
Reference Number: 4263221
Radio Service: IG
Call Sign: WQDH337

Re: SPECTRUM LICENSE CONSULTANTS, INC

The below-referenced license was granted authorizing the construction and operation of a new geographically based system; a new system for one or more new transmitter sites; or a modification to add one or more new transmitter sites to the existing license and/or add frequencies to one or more existing locations or microwave paths already authorized under the license. Granting this license imposed a construction or coverage requirement deadline on that system, location, and/or frequency. For more information on construction and coverage requirements, visit the Wireless Telecommunications Bureau website at <http://wireless.fcc.gov/licensing/const-req/>.

Our records indicate, however, that we have not received the Required Notification of Construction, due no later than 15 days after the construction or coverage deadline, 47 C.F.R. § 1.946(d), or a Request for an Extension of Time, due before the expiration of the construction or coverage requirement deadline, *id.* 1.946(e), for this license. If a licensee does not file the Required Notification or Extension of Time request, we presume that the license or license component has not been constructed, or the coverage requirement has not been met. As a result, the Commission's Universal Licensing System (ULS) has placed the below-referenced license or license component in "Termination Pending" status. A Weekly Termination Pending Public Notice was recently issued listing the license in termination pending status. If the licensee met its construction or coverage requirement, it has 30 days from the date of the Public Notice to file a petition for reconsideration, as described more fully below, showing that it timely met the construction or coverage deadline. Grant of a timely petition will result in removal of the "Termination Pending" status and the license or license component will be returned to "Active" status. Once the 30-day reconsideration period has closed and if the licensee has not filed a petition for reconsideration showing that it timely met the construction or coverage requirement, the "Termination Pending" status in ULS will change to "Terminated," effective as of the construction or coverage requirement deadline on its license. The spectrum will then be available to the Commission for reassignment by competitive bidding or other means, according to the rules of the wireless service.

In filing its petition for reconsideration, the licensee must include the actual date when construction was completed or the coverage requirement was met. Petitions for reconsideration may be filed electronically through ULS or by paper through the Office of the Secretary. To file electronically, visit the ULS web site at <http://wireless.fcc.gov/uls/> and click on "Submit a Pleading" link, complete the administrative information, and upload your petition for reconsideration. If filing by paper, the petition for reconsideration should state, on the first page: "To: Wireless Telecommunications Bureau, Mobility Division, WQDH337 and IG." For further information on filing a petition for reconsideration, visit the Commission's website at <http://wireless.fcc.gov/rules.html>

and select "Part 1 - Practice and Procedure." The rules for petitions for reconsideration can be found at Section 1.106, 47 C.F.R. § 1.106. For filing addresses, visit the Office of the Secretary's website at <http://www.fcc.gov/osec>.

For general information, visit the Commission's website at <http://www.fcc.gov> or call the FCC Support Center at (877) 480-3201 and select option 2 or TTY (202) 414-1255. Support Center hours are from 8:00 a.m. to 7:00 p.m. Eastern Time, Monday through Friday (except Federal holidays). To provide quality service and to ensure security, all telephone calls are recorded.
