The Commission grant of an Antenna Structure Registration for the above antenna structure imposed additional requirements upon you, including the requirement that you **notify the Commission within 5 days of completion of construction or cancellation of your project. Note:** If you have not begun construction (and the project has not been abandoned), **you do not need to notify the Commission at this time.**

To notify the Commission, **you must file FCC Form 854.** Notification by letter is not acceptable. Use the purpose “NT” for Notification of Completion of Construction or “CA” to cancel your registration.

Electronic filing of FCC Form 854 is required. To file electronically, connect to the antenna structure registration system by pointing your web browser to <http://wireless.fcc.gov/antenna>. For additional information or assistance you may also call the FCC at (877) 480-3201 (TTY 717-338-2824). To provide quality service and ensure security, all telephone calls are recorded.
