Re: FREEMAN, CITY OF

Your application is in a dismissal status effective 05/26/2009 without prejudice in accordance with Section 1.934 of the Commission's Rules for the reason(s) indicated below. If you still wish to be licensed, you must file a new application, fee, FCC Form 159 for feeable applications, and all required showings. If you currently hold a valid license, you may continue to operate under the parameters of that authorization.

If you are currently operating under authority provided by the Commission's Rules based on your submission of the above referenced application, you must immediately cease operation until such time as you come into compliance with the Rules.

Certain services are subject to mandatory electronic filing pursuant to Section 1.913. For all other services, you may file your application either electronically or manually, but not both. Electronic filing is recommended for the few radio services where manual filing is permitted. For information on how to file an application electronically, visit the website at <http://wireless.fcc.gov/uls>. If you wish to file your application manually, application forms can be obtained from the FCC's website at <http://www.fcc.gov/formpage.html>, by calling the FCC's Forms Distribution Center 800-418-FORM (800-418-3676), or from FCC's Fax Information System by dialing (202) 418-0177. For additional assistance, you may visit the website at <http://esupport.fcc.gov>. You may also call the FCC at (877) 480-3201 (TTY 717-338-2824). To provide quality service and ensure security, all telephone calls are recorded.

Your application lacked frequency coordination. You must refile an application through your frequency coordinator when you are requesting the licensing of a new station, modifying an existing licensed station, or when you are making any change to information previously coordinated. See Rule Section 90.135 and 90.175. For a list of certified frequency coordinators, you may access the following website <http://www.fcc.gov/pshs/public-safety-spectrum/coord.html>.
