6.1, 11.0 GHz DIGITAL MICROWAVE SYSTEM

\*\*\* New Paths & Major Paths \*\*\*

\*\*\* Expedited Response Requested By February 15, 2012 \*\*\*

Coordination data for the above referenced microwave route was forwarded to the existing licensees and applicants whose facilities could be affected on February 2, 2012.

Frequencies allocated for standard use were not used since they failed to meet the interference protection criteria as specified in FCC Rule Part 101.105. Channels set aside for narrow band use per Rule Part 101.147 were used on this system because no other channels were available due to conflicts with the microwave environment.

The following carriers or their designated coordination agents were notified, and there are no unresolved interference objections.
