

FCC Form 601 - Koch Knight LLC

Response to Question 50 – Felony Disclosure

Felony Conviction

Felony Plea of Koch Industries Inc.

On September 19, 1980, Koch Industries, Inc., an entity that indirectly controls Koch Knight LLC was sentenced to a \$50,000 fine by the U.S. District Court for the District of Colorado. The sentence was the result of Koch Industries' plea agreement resolving charges that it and other defendants had manipulated a lottery administered by the Federal Bureau of Land Management by submitting more applications for oil and gas leases than the rules permitted. Counsel for Koch Industries recently became aware of the 1980 guilty plea in connection with responding to an FCC Enforcement Bureau inquiry concerning other radio licenses (FCC File No. EB-05-1H-0717). Although the incident in question occurred 25 years ago, Koch Knight LLC is making this disclosure out of an abundance of caution.
