TRIBAL AND NHO INVOLVEMENT

At an early stage in the planning process, the Nationwide Agreement requires the Applicant to gather information from appropriate Indian Tribes or Native Hawaiian Organizations ("NHOs") to assist in the identification of historic properties of religious and cultural significance to them. Describe measures taken to identify Indian tribes and NHOs that may attach religious and cultural significance to historic properties that may be affected by the undertaking within the Areas of Potential Effects ("APE") for direct and visual effects. If such Indian tribes or NHOs were identified, list them and provide a summary of contacts by either the FCC, the Applicant, or the Applicant’s representative. Provide copies of relevant documents, including correspondence. If no such Indian tribes or NHOs were identified, please explain.

In Accordance with the Nationwide Programmatic Agreement (NPA), Environmentex, on behalf of ERS Telecom Properties, has provided notification of the proposed project via the Tower Construction Notification System (TCNS). Copies of all correspondence are included in this Attachment.

AREAS OF POTENTIAL EFFECTS (APE)
ATTACHMENT 7
AREAS OF POTENTIAL EFFECTS

a. Describe the APE for direct effects and explain how this APE was determined.
The proposed Site will consist of a proposed 60' x 60' lease area, along with associated easements, to contain a fenced tower compound of approximately the same size. Within the tower compound will be a 199' tall monopole tower and associated communications equipment to be mounted by the Applicant. The tower compound and tower will include space to accommodate the collocation of additional antennae and ground mounted equipment. For the purposes of this Section 106 Review, the assessment area was defined as the proposed 60' x 60' lease area, along with associated easements, and at least 30' beyond the lease area in all directions.

b. Describe the APE for visual effects and explain how this APE was determined.
As per the NPA, based on the height of the tower the APE for visual effects is 0.5 miles.
ATTACHMENT 8

HISTORIC PROPERTIES IDENTIFIED IN THE APE FOR VISUAL EFFECTS
ATTACHMENT 8
HISTORIC PROPERTIES (HP's) IDENTIFIED IN THE APE FOR VISUAL EFFECTS

a. Provide the name and address (including U.S. Postal Service ZIP Code) of each property in the APE for visual effects that is listed in the National Register, has been formally determined eligible for listing by the Keeper of the National Register, or is identified as considered eligible for listing in the records of the SHPO/THPO, pursuant to Section VI.D.1.a. of the Nationwide Agreement.  

A review of the National Register of Historic Places (NRHP) and Oklahoma Landmark Inventory records did not reveal any Historic Properties associated with the APE for visual effects. Historic Route 66 is located within ½ mile from the project area, but the proposed project will have no adverse effect on the criteria that make Route 66 eligible for the National Register of Historic Places.

b. Provide the name and address (including U.S. Postal Service ZIP Code) of each Historic Property in the APE for visual effects, not listed in Attachment 8a, identified through the comments of Indian Tribes, NHOs, local governments, or members of the public. Identify each individual or group whose comments led to the inclusion of a Historic Property in this attachment. For each such property, describe how it satisfies the criteria of eligibility (36 C.F.R. Part 63).

Not applicable.

c. For any properties listed on Attachment 8a that the Applicant considers no longer eligible for inclusion in the National Register, explain the basis for this recommendation.

Not applicable.

Section VI.D.1.a. of the Nationwide Agreement requires the Applicant to review publicly available records to identify within the APE for visual effects: i) properties listed in the National Register; ii) properties formally determined eligible for listing by the Keeper of the National Register; iii) properties that the SHPO/THPO certifies are in the process of being nominated to the National Register; iv) properties previously determined eligible as part of a consensus determination of eligibility between the SHPO/THPO and a Federal Agency or local government representing the Department of Housing and Urban Development (HUD); and, v) properties listed in the SHPO/THPO Inventory that the SHPO/THPO has previously evaluated and found to meet the National Register criteria, and that are identified accordingly in the SHPO/THPO Inventory.
ATTACHMENT 9

HISTORIC PROPERTIES IDENTIFIED IN THE APE FOR DIRECT EFFECTS
ATTACHMENT 9
HISTORIC PROPERTIES (HP’s) IDENTIFIED IN THE APE FOR DIRECT EFFECTS

a. List all properties identified in Attachment 8a or 8b that are within the APE for direct effects.

A field survey and file research at the Oklahoma Archeological Survey (OAS) in Norman, OK did not reveal any Historic Properties associated with the APE for direct effects.

b. Provide the name and address (including U.S. Postal Service ZIP Code) of each property in the APE for direct effects, not listed in Attachment 9a, that the Applicant considers to be eligible for listing in the National Register as a result of the Applicant’s research. For each such property, describe how it satisfies the criteria of eligibility (36 C.F.R. Part 63). For each property that was specifically considered and determined not to be eligible, describe why it does not satisfy the criteria of eligibility.

Not applicable.

c. Describe the techniques and the methodology, including any field survey, used to identify historic properties within the APE for direct effects.8 If no archeological field survey was performed, provide a report substantiating that: i) the depth of previous disturbance exceeds the proposed construction depth (excluding footings and other anchoring mechanisms) by at least 2 feet; or, ii) geomorphological evidence indicates that cultural resource-bearing soils do not occur within the project area or may occur but at depths that exceed 2 feet below the proposed construction depth.9

Not applicable.

---

8 Pursuant to Section VI.D.2.a. of the Nationwide Agreement, Applicants shall make a reasonable and good faith effort to identify above ground and archeological historic properties, including buildings, structures, and historic districts, that lie within the APE for direct effects. Such reasonable and good faith efforts may include a field survey where appropriate.

9 Under Section VI.D.2.d. of the Nationwide Agreement, an archeological field survey is required even if one of these conditions applies, if an Indian tribe or NHO provides evidence that supports a high probability of the presence of intact archeological Historic Properties within the APE for direct effects.
ATTACHMENT 10

EFFECTS ON IDENTIFIED PROPERTIES
ATTACHMENT 10
EFFECTS ON IDENTIFIED PROPERTIES

For each property identified as a Historic Property in Attachments 8 and 9:

a. Indicate whether the Applicant believes the proposed undertaking would have a) no effect; b) no adverse effect; or, c) an adverse effect. Explain how each such assessment was made. Provide supporting documentation where necessary.

No Historic Properties were identified; therefore, Environmentex believes that the proposed undertaking will have "no effect" on Historic Properties.

b. Provide copies of any correspondence and summaries of any oral communications with the SHPO/THPO.

Not applicable.

c. Describe any alternatives that have been considered that might avoid, minimize, or mitigate any adverse effects. Explain the Applicant’s conclusion regarding the feasibility of each alternative.

Environmentex believes no alternatives are required to avoid, minimize, or mitigate any adverse effects.
ATTACHMENT 11 - PHOTOGRAPHS
Except in cases where no Historic Properties were identified within the Areas of Potential Effects, submit photographs as described below. Photographs should be in color, marked so as to identify the project, keyed to the relevant map (see Item 12 below) or text, and dated; the focal length of the lens should be noted. The source of any photograph included but not taken by the Applicant or its consultant (including copies of historic images) should be identified on the photograph.

a. Photographs taken from the tower site showing views from the proposed location in all directions. The direction (e.g., north, south, etc.) should be indicated on each photograph, and, as a group, the photographs should present a complete (360 degree) view of the area around the proposed tower.

No Historic Properties were identified in the APE; however, photographs were taken with a lens focal length of 27-135mm and are attached.

b. Photographs of all listed and eligible properties within the Areas of Potential Effects.

Not applicable.

c. If any listed or eligible properties are visible from the proposed tower site, photographs looking at the tower site from each historic property. The approximate distance in feet (meters) between the site and the historic property should be included.

There are no listed or eligible properties within the Visual APE that are visible from the tower site.

d. Aerial photos of the APE for visual effects, if available.

Not applicable.

Project Description: Monopole tower with Compound Area

To Whom It May Concern:

The Delaware Nation Cultural Preservation Department received correspondence regarding the above project. Our office is committed to protecting sites important to tribal heritage, culture and religion. Furthermore, the tribe is particularly concerned with archaeological sites that may contain human burials or remains, as associated funerary objects.

As described in your correspondence and upon research of our database(s) and files we find that the Lenape people occupied this area either prehistorically or historically. However, the location of the project does not endanger cultural or religious sites of interest to the Delaware Nation. Please continue with the project as planned. However, should this project inadvertently uncover an archaeological site or object(s), we request that you halt all construction and ground disturbance activities and immediately contact the appropriate state agencies, as well as our office (within 24 hours).

Please note the Delaware Nation, the Delaware Tribe of Indians, and the Stockbridge Munsee Band of Mohican Indians are the only Federally Recognized Delaware/Lenape entities in the United States and consultation must be made only with designated staff of these three tribes. We appreciate you cooperation in contacting the Delaware Nation Cultural Preservation Office to conduct proper Section 106 consultation. Should you have any questions, feel free to contact our offices at 405/247-2448 ext. 1181 or by email: jross@delawarenation.com.

Dear Mr. McCallister,

In keeping with the Federal Communications Commission (FCC), the National Environmental Policy Act (NEPA) and Section 106 of the National Historic Preservation Act (NHPA), 36 CFR Part 800, this letter is to acknowledge that the Muscogee (Creek) Nation has received notice of proposed construction of a 199-foot Monopole tower and associated equipment within a proposed 60’ by 60’ lease area, along with associated easements at the above referenced location.

After reviewing all pertinent information and our records, at this time we are currently unaware of any historic, cultural, religious or scared sites at this exact location. Therefore, we recommend a finding of “No Historic Properties Effected” for the proposed undertaking.

Furthermore, due to the historic presence of our people within the project area, inadvertent discoveries of human remains and related NAGPRA items may occur, even in areas of existing or prior development. Should this occur, we request all work cease and the Muscogee (Creek) Nation and other appropriate agencies be immediately notified.

Should further information or comment be required please do not hesitate to contact me at (918) 732-7733, fax: (918) 758-0649, or by e-mail: mcn-tcns@mcn-nsn.gov

Sincerely,

Emman Spain, THPO
Muscogee (Creek) Nation
