¹ Major Trading Areas (MTAs) (used for assigning PCS A & B licenses) and Metropolitan Statistical Areas (MSAs) and Rural Service Areas (RSAs) (used for assigning Cellular A & B licenses) do not coincide exactly with BTAs, therefore licenses assigned via MTA, MSA, or RSA may be noted in multiple BTAs. As a result, the licenses listed under cellular block (A or B) do not compete against other cellular licenses in their block, rather each is licensed to serve a separate geographic region of the pertinent BTA and competes against the other cellular carrier and operating PCS and ESMR carriers in the BTA.

² Denotes active cellular licenses granted more than 18 months ago, active PCS licenses for which a construction notification has been filed, and other sources of publicly-available information; carriers that have completed construction may not be operating, and carriers that are operating may not have filed construction notices. In instances where there are multiple carriers within a license block in a particular BTA, the block is shaded if any of the carriers satisfy the criteria in the preceding sentence. This chart lists licensed, facilities-based terrestrial carriers only, and does not include resellers or satellite service providers.

| BTA Name (BTA#) | Cellular Block A | Cellular Block B | PCS Block A | PCS Block B | PCS Block C | PCS Block D | PCS Block E | PCS Block F | ESMR |
