**RE: CITY OF MOBILE, AL
SPECIAL TEMPORARY AUTHORIZATION REQUEST**

To Whom It May Concern:

The City of Mobile, AL requests a Special Temporary Authority to operate on existing frequencies from call sign WPPW333 at three new fixed locations. This multi-jurisdictional and multi-disciplinary interoperable voice/data project has been in the planning stages for more than five years. They have multiple vendor contracts to create their three new Digital Simulcast Sites within the city limits of the City of Mobile. This new radio communications system will allow partnered agencies throughout the Mobile County Metropolitan Statistical Area to communicate and share critical information in real time. These frequencies are used by public safety for the protection of life and property.

In addition, the City of Mobile has received a grant for this system, which must be used by August of 2008.

If you have any questions, please call me at (386) 944-2463.

Sincerely,

Christine Phelps
Licensing Specialist
