re: Antenna Structure file No. A1052672

To Whom It may concern,

This correspondence is in regards to the above proposed Shentel Telecommunications tower called 67262, to be located at 1193 Webbs Gate Rd Wayside WV 24985.

I reside directly across the lane from the property this proposed tower is to be located.

After reading the specifications as to location, height, and proposed lighting on this tower I am filing a formal complaint to this proposed tower.

My bedroom window is directly west right in the line of the tower. I am not anxious to have a red light flashing in my bedroom window all night. Along with the asthetics of having the scenery of the area destroyed by this hideous structure.

I believe my property will diminish in value because of this tower. This area is pretty much pristine in regards to viewshed. If I were to ever consider selling my home I'm not sure I would get a fair price because of the ruined landscape.

So If you are still only considering this tower as a proposal, please consider my complaint as being against this tower. I cannot stress this enough.

Also the email address that was published in the notice was not correct.

Thank You for reviewing this letter.

Sincerely, with many reservations,

Denise Stracener
