Details: The Osage Nation Tribal Historic Preservation Office requires the following information and fee regarding all antenna or tower notifications:

- 1) Specific legal description of site location using USPLSS and UTM designations only.
- 2) Maps locating project area, within region and within local area (aerial and USGS topo maps)
- 3) Project site plan maps, do not submit hand drawn or hand annotated maps
- 4) Site photographs (include images with exact location of construction site by taking shot with cell tower/base/compound location indicated or marked by stakes or flagging)
- 5) Include map locating shovel tests and provide shovel test log.
- 6) Professional cultural/archaeological survey report (Secretary of Interior's standards and guidelines for reports can be found at the National Park Service website ([www.nps.gov](http://www.nps.gov))).
- 7) Reference all documentation with TCNS #.
- 8) Submit a \$700.00 per-tower fee for administration, data processing, and handling. For expedited projects the administration fee is \$900.00. Make the check payable to the Osage Nation. On the memo line write all TCNS numbers.
- 9) A TELECOMMUNICATION CONSULTATION PROCEDURES DOCUMENT (Revised July 2015) is available by email and is recommended for guidance, send an email request to Dr. Andrea A. Hunter at: ahunter@osagenation-nsn.gov.

Telecommunications Consultation Procedures

The United Keetoowah Band Preservation Office has established the following consultation procedures to be followed for all telecommunications projects identified as undertakings by the Federal Communications Commission.

A. Please submit by US postal mail or other carrier the following:

1. 1-page cover letter that includes:

- a. TCNS Number (on all correspondence)
- b. Company Name
- c. Project name, city, county, state
- d. Project type: new build, collocation, expansion, tower type monopole, guyed-tower, height, land use, access road (existing or new route), and explanation of ground disturbance
- e. Tower coordinates - GIS shapefiles projected in NAD 1983 UTM Zone 15N coordinate system. Lats and Longs need to be in decimal degrees.
- f. Total area surveyed in acres
- g. Contact information with individual's name, address, phone, fax, and email

2. Professional cultural/archaeological survey report. With the first cultural resource survey report, include curriculum vitae for all archaeologists who conduct the field surveys and produce the cultural survey reports.

3. Aerial and/or color USGS topographic maps locating project area within a) state, b) county, and c) within local area.

4. Aerial color USGS topographic or planimetric maps specifically locating: a) cell tower site, b) .5, .75 or 1.5 mile APE, c) surveyed area for access road, d) surveyed area for utility easement, e) for guyed towers, surveyed locations for guy anchors, f) surveyed staging area, and g) location of archaeological and historic sites in the APE and in the close vicinity of the APE

5. Project site plan maps depicting labeled and shovel test locations. Do not submit hand drawn or hand annotated maps. At a minimum shovel tests need to be at the center and four corners of the cell tower lease area, all guy anchor locations, throughout the access road and utility easement, and staging area. The minimum shovel test density for roads and utility easements is one every 20 meters. Shovel test minimum width is 40 cm. Shovel test minimum test depth to all shovel probes to be dug to 1 meter (100 cm) in depth, the standard archaeological method, unless impenetrable by hand. Excavated shovel tests must be screened using a 0.25 inch mesh screen, dug in stratigraphic or 10cm levels, and measurements must be recorded in centimeters.

6. Table listing shovel test locations, width (cm), depths (cm), soils, and results

7. Site photographs in color, specifically images with exact location of a) cell tower construction site by taking shot with cell tower/base/compound location marked by stakes or flagging, b) guy anchor locations, c) access road d) utility easement, and e) staging area.

8. INVOICE. Submit a check payable to the United Keetoowah Band notating the TCNS number on the memo line with the applicable fee as outlined below for administration, data processing, handling research, and review.

FEES

\$1000 - per tower fee.

\$600 - collocated towers

B. Exceptions for information submission:

1. Item numbers 1, 2, and 7 above to be submitted for Collocations that do not involve any ground disturbance.

2. Item numbers 1, 3, 4, 7, and 8 above to be submitted for Collocations or new towers that do involve ground disturbance. In addition, please provide documentation that confirms the significant ground disturbance claim, i.e. photographs past land use, and/or inspection by a qualified archaeologist

C. Mail one printed color copy of all documentation accompanied with a CD version.

Please, do NOT send FCC Form 620 (FCC submittal form and attachments packet) or any sections of the FCC form in place of the cultural resource survey report or any state Section 106 survey memo/short reporting form.

Please use only the following contact address and information:

- tpatton@estoo.net - 918-666-2435 (ext: 1860)  
Details: NOTE: CHANGE IN FEE - EVERY TCNS ABOVE 131828

The Cultural Preservation Office of the Eastern Shawnee Tribe of Oklahoma requires the following information and fees regarding all proposed FCC projects.

Please do not email documentation; it will be deleted without being opened. Mail one printed color copy of all documentation.

Please submit by US postal mail or other parcel carrier all of the following information for all FCC projects:

1. A 1-page cover letter with the following information:

- a) TCNS number
- b) Company name
- c) Project name, city, county, state
- d) Project type
- e) UTM coordinates using WGS84 (G1150)
- f) Total area surveyed in acres
- g) Contact information.

2. Professional cultural/archaeological resource survey report.

3. Aerial and color USGS topographic maps locating project area within the state, county, and local area.

4. Aerial, color USGS topographic, or planimetric maps locating tower site, APE, access road, utility easement, guy wire locations surveyed, surveyed staging areas, and known archaeological/historic sites.

5. Project site plan map depicting labeled shovel test locations.

6. Shovel test log.

7. Site photographs.

8. A copy of the review letter or TCNS e-response from the State Historic Preservation Office and all other state-mandated review offices for projects involving ground disturbance.

9. Please submit a fee of \$550.00 per/tower, for administration, data processing, handling, research and review. Make the check payable to the Eastern Shawnee Tribe of Oklahoma. On the memo line write all TCNS numbers. Collocations, PTC poles, and projects in previously disturbed locations; the administration, data processing, handling, research and review feewill be \$100.00.

Effective October 1, 2015, regarding collocations, PTC poles, and projects in previously disturbed locations, the administration, data processing, handling, research and review will increase to \$550.00 for EVERY TCNS ABOVE 131828.

10. THE EASTERN SHAWNEE TRIBE'S CONSULTATION PROCEDURES DOCUMENT is available by email and is highly recommended for guidance. Send an email to Travis Patton at: [celltower@estoo.net](mailto:celltower@estoo.net).

20. THPO Diane Hunter - Miami Tribe of Oklahoma - (PO Box: 1326) Miami, OK - [swillard@miamination.com](mailto:swillard@miamination.com); [dhunter@miamination.com](mailto:dhunter@miamination.com) - 918-541-1390

Details: The Miami Tribe of Oklahoma has instituted new NHPA, Section 106, consultation procedures for cell towers effective 9-15-2010. For an updated copy of these procedures (10-31-11), which you will need to follow to complete Section 106 consultation with us, please contact the THPO Assistant at [swillard@miamination.com](mailto:swillard@miamination.com). Thank you.

21. EPA Cheryl Stafford - Ottawa Tribe of Oklahoma - (PO Box: 110) Miami, OK - [cherylstafford@sbcglobal.net](mailto:cherylstafford@sbcglobal.net) - 918-541-1902

Details: NEW INFORMATION: ALL FINAL COMMENTS ON TCNS TOWER SITES WILL BE IN WRITTEN FORM AND SIGNED INDIVIDUALLY BY Cheryl Stafford, WHICH WILL ALLOW FUTURE AUTHENTICATION BY COMPARING COPIES WITH THE SIGNED, FILED ORIGINALS. THE OTTAWA TRIBE DOES NOT PROVIDE VERBALFINAL COMMENTS. The Ottawa Tribe of Oklahoma has developed procedures for cell tower construction projects. Please contact Cheryl Stafford for a copy of those procedures at 918-541-1902(phone) or 918-542-3214 (fax), or visit our web site [ottawatribes.org](http://ottawatribes.org). As you will see when you obtain a copy of our procedures, we require photos and a topo map for EVERY proposed site. The Ottawa Tribe of Oklahoma has listed its geographic areas of interest on this web site. We consider this listing to be official notification to all those proposing to construct cell towers in those areas that you need to contact us. For those states where we are interested in all counties, we have listed just the state. For those states where we are interested in only certain counties, we have listed the counties. The Ottawa Tribe of Oklahoma, in concert with its historic preservation consultant Algonquin Consultants, Inc., is pleased to assist you in complying with your Section 106 requirements. We do not handle any consultation or inquiries by e-mail.

22. THPO Sherri Clemons - Wyandotte Nation - 64700 E, Hwy 60 Wyandotte, OK - algonquin@neok.com - 918-678-6344

Details: Greetings from Wyandotte Nation.

PLEASE BE ADVISED THAT AS OF TCNS NO. 126800, ALL COLOCATIONS AND PREVIOUSLY DISTURBED TOWER LOCATIONS WILL BE \$200.

ALL RAW LAND NEW BUILD SITES REMAIN AT \$600.

EACH PTC POLE IS STILL \$100 (PER NON-EXEMPT POLE, NOT PER TCNS).

The following information is provided automatically via the TCNS web site. Additional information may be provided in a second email that we send for each tower that is logged into TCNS. However, as we have been unable to use the TCNS website reliably to send our second response email since early April 2014, this very likely will be the ONLY email that you receive until the technical issue preventing us from using that feature has been addressed.

NEW INFORMATION- From this point forward, please send the required information for our review by email ONLY. Send the fee and a cover letter by hard copy to the Tribe, but DO NOT send review information by hard copy. Doing so will delay the review.

We are interested in consulting on this tower or broadband project, just as we are interested in being consulted regarding all federal undertakings in our homelands. This consultation is one of the activities required by the National Historic Preservation Act (NHPA) for such federal undertakings.

Please follow our archaeology procedures (9-9-13) and our general NHPA procedures for consultation (6-1-13), both available by e-mailing the cell tower program archaeologist, Rebecca Hawkins, at algonquin@neok.com. These procedures supersede all earlier versions of our procedures. All further correspondence regarding this tower should also be directed to that email address. With questions, you may call Mr. Lamont Laird at 918-533-2212.

AS STATED IN OUR GUIDELINES, AN ARCHAEOLOGIST MUST PERFORM THE FIELD WORK AND RELATED ANALYSES. The Wyandotte Nation will object to any tower where field work/analysis was performed after 9-9-13 and where a trained, experienced archaeologist did NOT conduct the field work. The National Park Service defines Essential Competencies for the field of archaeology at <http://www.nps.gov/training/npsonly/RSC/archeolo.htm>. Minimally, a "trained, experienced archaeologist" has at least a BA in Anthropology with a focus in archaeology and two solid years offfield experience in the region where the field work is being performed.

The fee for all collocations and towers built in previously disturbed areas is \$100. The fee for all other towers is \$600.

Please make sure to provide your archaeologists with a copy of our procedures PRIOR TO the time that they do field work. If archaeology reports do not provide the information requested on the last 2 pages of our archaeology procedures, which you may use as a checklist, the report will be rejected. Please do not send reports that you know are deficient, as doing only delays the response process for your tower and those of other applicants as well.

Tizame (thank you),

Sherri Clemons, THPO  
Wyandotte Nation

23. Special Projects Manager/NAGPRA Logan R Pappenfort - Peoria Tribe of Indians of Oklahoma - 118 S. Eight Tribes Trail (PO Box: 1527) Miami, OK - lpappenfort@peoriatribes.com - 918-540-2535  
Details: Peoria Tribe of Indians of Oklahoma Tower Consultation Procedures  
Beginning April 21, 2015, the Tribe will require the following for tower consultation:

1. Materials are to be faxed, mailed or shipped to our tribal office. We will not handle tower consultation electronically.

When you receive the FCC response that lists the Peoria Tribe of Indians of Oklahoma for your area, YOU HAVE BEEN OFFICIALLY NOTIFIED OF OUR INTEREST.

To initiate consultation with the Peoria Tribe please submit a brief project summary via U.S. mail or other carrier with a per-project research and filing fee as follows:

| Project Type                    | Filing Fee |
|---------------------------------|------------|
| New tower-any type, cell or PTC | \$200      |
| Co-location                     | \$100      |
| DAS Nodes in Right-of-Way       | \$100      |

Checks should be made payable to Peoria Tribe of Indians of Oklahoma with the TCNS number in the memo line. Please note, this fee is not for determining our initial interest, as we have already done so by defining our geographic areas of interest through the TCNS, but for providing specialized information unique to the Peoria Tribe. Please use the TCNS number in any type of communication with us.

2. With the consultation initiation letter, please include the following:  
a. Contact information, including phone and fax numbers, physical address, and e-mail address for the person to whom information from the Peoria Tribe should be sent.

b. A copy of the review letter from the State Historic Preservation Office for the state in which the tower is located for both new towers and collocations.

c. These portions of the archaeological report: research methods and findings for both the historic archives review and the field survey. Please do not send us the architectural survey information, unless it is embedded with the archaeological information. We would appreciate 2 or 3 pictures of the project area.

d. A copy of the portion of the USGS quadrangle map, on which you have noted the project area.

e. Please fax or mail/ship materials regarding tower consultation. We will not handle tower consultation electronically. Call 918-540-2535 with questions.

PLEASE DO NOT SEND THE ENTIRE FORM 620 or 621, OR PROJECT CONSTRUCTION PLANS. We request only the items listed above.

3. Please use only the following address and contact information.

24. THPO Kim Jumper - Shawnee Tribe - 29 South 69A Highway Miami, OK - kimjumper@shawnee-tribe.com - 918-542-2441

Details: THIS IS YOUR OFFICIAL NOTICE THAT THE SHAWNEE TRIBE IS INTERESTED IN CONSULTING ON ALL PROJECTS BUILT IN OUR AREAS OF GEOGRAPHIC INTEREST.

ATTENTION, NEW INFORMATION: Our procedures were updated on 14 January 2008. Please call Kim Jumper, THPO, at 918-542-2441, so that she can send you a copy.

If your tower is a co-location, please fax us this information to let us know. We cannot always tell from the TCNS web site that a tower is a co-location. We require a written response from you to let us know that it is a co-location. If a co-location project includes some new ground disturbance (such as from an expanded compound or access road, or construction of an ancillary structure), the Shawnee Tribe treats such a project the same as any other non co-location project.

Our correct mailing/physical address is: 29 South Highway 69A. Our correct phone number is (918-542-2441) and our historic preservation fax line is (918-542-9915). THPO Kim Jumper manages all cell tower consultation.

As of 26 June 2006, all of the faxed responses of our final comments on a tower site will contain an original Shawnee Tribe signature. Each final comment fax is signed individually. Copies may be compared, for authentication, against the original in our files. If a final comment fax does not contain a signature, it is not valid. ALL FINAL COMMENTS FROM THE SHAWNEE TRIBE ARE WRITTEN; FINAL COMMENTS ARE NEVER PROVIDED VERBALLY. IF THE SHAWNEE TRIBE IS CREDITED WITH HAVING GIVEN A VERBAL RESPONSE, THAT RESPONSE IS NOT VALID.

If you receive notification through the TCNS listing the Shawnee Tribe, that is an indication that the Shawnee Tribe is interested in consulting on the tower for which that notification was received. Please consider that our official indication of interest to you. The Shawnee Tribe considers the Tower Construction Notification System's weekly e-mail to be the first notification that we receive that a tower will be constructed in an area of our concern. We do not view the TCNS notification as completion of 106 consultation obligations.

The Shawnee Tribe has developed streamlined consultation procedures for cell tower developers and their subcontractors. If you do not have a copy of the procedures - most recently updated on 14 January 2008 - please contact us, as you must follow these procedures to consult with us on cell tower projects. Call us at 918-542-2441 or fax us at 918-542-9915. It is the tower builder's responsibility to make sure that you have our most recent consultation procedures.

PLEASE DO NOT SEND US INFORMATION, QUERIES, OR COMMENTS ELECTRONICALLY. SINCE 1 DECEMBER 2005, WE HAVE NOT HANDLED ANY CELL TOWER CONSULTATION, INQUIRIES, OR CORRESPONDENCE VIA E-MAIL.

25. THPO Alvin Windy Boy Sr - Chippewa Cree Tribe of the Rocky Boy's Reservation - 9740 Upper Box Elder Road (PO Box: 230) Box Elder, MT - Falene.Russette@nei-yahw.com - 406-395-4700  
Details: The Chippewa Cree Tribe has established a procedure for FCC TCNS review. Online submissions can be completed at <http://app.tribal106.com>. Please include/upload the Archaeological Survey report, site plans, aerial photos, topo map, and the correct coordinates for the proposed project.

According to our tribal elders, historians, and archaeological/anthropological evidence, the Chippewa & Cree Tribes have a long and storied history throughout Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, North Dakota, and Montana. That history includes major sacred events, encampments, medicinal plants and other significant markers that indicate our footprint throughout this entire region.

Based on the location of the proposed project and the poles that you will be constructing as part of the Section 106 process in this particular geographic location, we are REQUESTING TO BE CONSULTED on this proposed project.

The Chippewa Cree Tribe, through the Cultural Resource Preservation Department, has established a fee schedule for consultation services. We are only accepting checks at this time.

Please utilize the consultation processing system on our website: <http://app.tribal106.com>

If you have any questions, please feel free to contact Alvin Windy Boy Sr., THPO, at [alvin@nei-yahw.com](mailto:alvin@nei-yahw.com) or phone (406)395-4700. THANK YOU!

"Exclusions" above set forth language provided by the Tribal Nation or SHPO. These exclusions may indicate types of PTC wayside pole notifications that the Tribal Nation or SHPO does not wish to review. TCNS automatically forwards all notifications to all Tribal Nations and SHPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribal Nation or SHPO. Exclusions may also set forth policies or procedures of a particular Tribal Nation or SHPO (for example, types of information that a Tribal Nation routinely requests, or a policy that no response within 30 days indicates no interest in participating in pre-construction review).

Please be advised that the FCC cannot guarantee that the contact(s) listed above opened and reviewed an electronic or regular mail notification. If you learn any of the above contact information is no longer valid, please contact the FCC. The following information relating to the proposed tower was forwarded to the person(s) listed above:

**FINDING OF NO EFFECT – While there are cultural resources in the vicinity of the proposed undertaking - no cultural resources should be adversely affected by your proposed undertaking. If cultural materials are discovered during construction please notify the Tribal Historic Preservation Office.**

Under the authority of Section 106 of the National Historic Preservation Act of 1966 and in accordance with 36CFR800.2A4, after reviewing the materials you gave us for the project, the Sisseton Wahpeton Oyate Tribal Historic Preservation Department finds there should be no effect by the proposed undertaking on cultural resources.

The proposed undertaking is near known and documented cultural resources. Many of these resources are Native American sites. The vicinity of the project is significant to the Sissetonowan (People of the Marsh) Wahpetonwan (Dwellers Among the Leaves) Oyate (People). For millennia, the Sissetonowan Wahpetonwan Oyate have Wo Wacekiya (prayed), gathered pejuta (medicines), Wicoti (camped) the surrounding vicinity, and Wichah'pi (buried our dead). Since the area around the project was HEAVILY utilized in prehistoric times, it is particularly important for the construction to remain in the areas designated in the archaeological survey. No further cultural resource work is necessary for this project as long as the areas outlined are adhered to. If additional work is necessary outside the areas designated, please notify our department and we can make the necessary arrangements.

Please be aware though, because cultural inventories are done at different times of the year and under different circumstances there can be variations in the effectiveness of pedestrian surveys. At times, certain resources are not visible. For instance, medicinal plants, some very significant to the ongoing traditions and lifeway of the Spirit Lake people, may only be seen in the spring or summer of the year. Other times, the grass is too deep for certain features or artifacts to be located through pedestrian surveys. With this in mind, we recommend that cultural resources not be forgotten with this letter of finding of no effect. **If resources are located during construction please halt activity and notify our office.**

Thank you for consulting with the Tribal Historic Preservation Office. If you have any questions please feel free to contact our office at (605) 698-8306 or [SWO\\_TCNS@swo-nsn.gov](mailto:SWO_TCNS@swo-nsn.gov)

SUBJECT: Concurrence Letter for FCC Pre-Construction Review of TCNS #136392

Dear Ma'am or Sir:

The Omaha Tribe of NE & IA has reviewed all available information regarding TCNS #136392 and concurs that construction of this proposed project will not adversely affect any sacred sites, traditional cultural properties or any other historic property of interest to the Omaha Tribe.

However, in the event of any inadvertent discovery of any American Indian remains, funerary objects, or objects of cultural patrimony, please contact the Omaha Tribe of NE & IA immediately.

Thank you for the opportunity to review this project and provide comments.

To Whom It May Concern:

The Delaware Nation Cultural Preservation Department received correspondence regarding the above project. Our office is committed to protecting sites important to tribal heritage, culture and religion. Furthermore, the tribe is particularly concerned with archaeological sites that may contain human burials or remains, as associated funerary objects.

As described in your correspondence and upon research of our database(s) and files we find that the Lenape people occupied this area either prehistorically or historically. However, the location of the project does not endanger cultural or religious sites of interest to the Delaware Nation. Please continue with the project as planned. However, should this project inadvertently uncover an archaeological site or object(s), we request that you halt all construction and ground disturbance activities and immediately contact the appropriate state agencies, as well as our office (within 24 hours).

Please note the Delaware Nation, the Delaware Tribe of Indians, and the Stockbridge Munsee Band of Mohican Indians are the only Federally Recognized Delaware/Lenape entities in the United States and consultation must be made only with designated staff of these three tribes. We appreciate your cooperation in contacting the Delaware Nation Cultural Preservation Office to conduct proper Section 106 consultation. Should you have any questions, feel free to contact our offices at 405/247-2448 ext. 1181 or by email: [jross@delawarenation.com](mailto:jross@delawarenation.com).

SUBJECT: Concurrence Letter for FCC Pre-Construction Review of TCNS #136392

Dear Ms. Johnson:

The Ponca Tribe of Oklahoma has reviewed all available information regarding TCNS #136392 and concurs that construction of this proposed project will not adversely affect any sacred sites, traditional cultural properties or any other historic property of interest to the Ponca Tribe.

However, in the event of any inadvertent discovery of any American Indian remains, funerary objects, or objects of cultural patrimony, please contact the Ponca Tribe of Oklahoma immediately.

Thank you for the opportunity to review this project and provide comments.

RE: TCNS # 136392: Site Identifier- EV Mount Vernon East/821095, Project # 6116000893, Indian Mound Road/East side of Indians Mounds Road, Mt. Vernon, Posey County, IN 47620

Dear Ms. Johnson:

This response is regarding the request from your office for a review of the project listed above. We have received your payment of \$500.00 in check number 27800 for a communication tower located at Indian Mound Road/East side of Indians Mounds Road, Mt. Vernon, Posey County, IN 47620. I have enclosed receipt numbered 2.17.007 for your accounts receivable records.

We have reviewed the SHPO response from the Indiana Department of Natural Resources, the FCC Form 620 and Phase I Archaeological Survey, photographs, aerial imagery, topographic map and site plans. We find after review of this information that we concur with the SHPO response, FCC Form 620 findings and the Phase I Archaeological Survey for project clearance.

Although project clearance is recommended, we remain interested in further communications regarding this project due to the location. The Shawnee people have a documented historical presence in Indiana with known village locations in the north central, north eastern, south western and south eastern portions of the state. While there are no documented village sites within the project site there still remains the potential of finding unknown sites in and surrounding the project location.

It is further advised that if the area of potential effect changes or in the event of an inadvertent discovery of human remains or other cultural resources that we receive notification within 48 hours. As well, any advertent discovery of human remains or other cultural resources should remain in situ until consultation with interested tribes and agencies is undertaken.

Thank you for your time and patience in communications regarding section 106 and NAGPRA issues. We appreciate your continued efforts in such matters. Please do not hesitate to contact me at the information below if you have any questions or concerns.

Sincerely,

Leonard Longhorn

## Getegitigaaning Ojibwe Nation Tribal Historic Preservation

P.O. Box 249, E23857 Poplar Circle Watersmeet, MI 49969

Phone: 906-358-0137 Fax: 906-358-4850

Booshoo,

The Getegitigaaning Ojibwe Nation THPO (Lac Vieux Desert Chippewa/LVD) received your requests for comments or interest concerning the National Historic Preservation Act, Section 106 request for review and comment to the effect on historic and cultural sites within the proposed above referenced project area.

Getegitigaaning Ojibwe Nation does not release any cultural/historical data to any agency outside of the Nation. We will however research and check our databases, maps, and any other pertinent inventory records with regards to said project.

Under the authority of Section 106 of the National Historic Preservation Act of 1966, as amended, we have reviewed the above-cited undertaking at the location noted above. Based on the information provided for our review, it is the opinion of the Ketegitigaaning Ojibwe Nation Tribal Historic Preservation Officer (THPO) that the project will have **no adverse effect** [36 CFR § 800.5(b)] on historic properties within the area of potential effects for the above-cited undertaking.

This letter evidences the FCC's compliance with 36 CFR § 800.4 "Identification of historic properties" and 36 CFR § 800.5 "Assessment of adverse effects", and the fulfillment of the FCC's responsibility to notify the THPO, as a consulting party in the Section 106 process, under 36 CFR § 800.5(c) "Consulting party review".

Referencing above mentioned project we have determined that we have no objections to the project at this time we have now completed the necessary paper work and research for site documentation and will keep the project open until such time it ends. If the scope of work changes in any way, or if artifacts or human remains are discovered please notify LVD immediately.

Please forward any future request for review of historic and cultural properties according to the National Historic Preservation Act Section 106 to Ms. Giiwegiizhigookway Martin, Tribal Historic Preservation Program Officer at the address below.
