

As part of a corporate reorganization, Alteran Communications Inc. (“Alteran”) hereby seeks Federal Communications Commission (“FCC”) consent to the pro forma transfer of control of its direct, wholly owned subsidiary RCA Telecom, LLC (“Licensee”), to Network Links Global Inc. (“NL Global”), a 100% commonly owned affiliate of Alteran. Subsequent to FCC approval and consummation of the proposed transaction, IMC B.V., the ultimate indirect parent company of Alteran, NL Global, and Licensee, will remain the real party in interest for the FCC licenses held by Licensee. Accordingly, the proposed transfer of control is pro forma in nature. Approval of the application will allow Licensee to continue operation of its authorized facilities serving the public interest, convenience and necessity. Upon FCC approval and consummation of the proposed transaction, Licensee will continue to operate the Licenses consistent with the FCC’s policies and rules as well as the authorized parameters for the station.
