Re: T-Mobile License LLC Auction 108 Application Number 0010206629

On behalf of T-Mobile License LLC (“T-Mobile”), we provide the Federal Communications Commission (“Commission”) with minor corrections to the updated spectrum holdings information that was submitted on January 3, 2024.

Upon further review, T-Mobile has determined that the change in spectrum holdings it reported in four counties in New York (Franklin, Jefferson, Lewis, and St. Lawrence) between 12 and 30 MHz was an error, and that the correct spectrum holdings are those detailed in its original November 2022 submission. For current purposes, T-Mobile’s attributable 2.5 GHz EBS spectrum holdings (including the Auction 108 spectrum currently under review) in these four counties should remain as 116.5 MHz and T-Mobile’s total attributable holdings are currently 318 MHz (Franklin County) and 340 MHz in Jefferson, Lewis, and St. Lawrence Counties.

Please contact the undersigned should there be any further questions.

A copy of this letter is being served upon AT&T Services, Inc.

Respectfully submitted,
