**Attachment 4. Site Information – Additional Site Information**

**Additional Site Information Recommendations:**

Describe any additional structures, access roads, utility lines, fences, easements, or other construction planned for the site in conjunction with the proposed wireless telecommunication facility. Use this attachment to provide additional details needed to present a full and accurate description of any construction activities that will take place to complete the installation.

The Subject Property, located on the east side of Indian Mound Road in Mt. Vernon, Posey County, Indiana, is situated within a predominantly agricultural and residential rural neighborhood. Areas to the north, east, south, and west consist of agricultural land and scattered single-family residences that were developed before 1920. Plots of undeveloped land are located in areas to the west of the Subject Property. In approximately 1977, a commercial/manufacturing structure was constructed to the west of the Subject Property. Highway 62 was constructed to the north of the Subject Property around this time as well. Tall trees and utility poles block sightlines throughout the area. Roads carrying light residential traffic include Indian Mound Road to the west of the Subject Property and Lower Mt. Vernon Road to the south of the Subject Property. Topography is relatively flat.

The Subject Property consists of an approximately 30.36-acre lot that primarily consists of an agricultural field. A grain silo is located on the southern portion of the Subject Property and was constructed in approximately 1960. Undeveloped, wooded land is located on the northeastern portion of the Subject Property. A tributary of the McFadden Creek runs through the central portion of the Subject Property.

Crown Castle proposes to install a new 280' (85.3m)-tall self-support tower and associated support equipment within a 100'x100' (30.5x30.5m) lease area. A turnaround and access route will be established to the south of the lease area within a 30' (10.1m)-wide and 137' (41.8m)-long access/utility easement beginning from Indian Mounds Road.

Site Plans/Lease Exhibits provided by Crown Castle are included in this attachment.

**LAND SURVEYOR'S CERTIFICATE**  
 IN ACCORDANCE WITH TITLE 865, CHAPTERS 1 THRU 12 OF THE INDIANA ADMINISTRATIVE CODE, THE FOLLOWING OBSERVATIONS AND MEASUREMENTS WERE MADE FOR THE LINES AND CORNERS ESTABLISHED ON THIS SURVEY AS A RESULT OF CHANGES IN THE REFERENCE MONUMENTS:  
 A) DISCREPANCIES IN RECORD DESCRIPTIONS AND PLATS  
 B) DISCREPANCIES IN RECORD DESCRIPTIONS AND PLATS  
 C) INCONSISTENCIES IN LINES OF OCCUPATION  
 D) UNCERTAINTY

AS A RESULT OF THE ABOVE OBSERVATIONS, IT IS MY OPINION THAT THE LINES AND CORNERS ESTABLISHED ON THIS SURVEY ARE AS FOLLOWS:

- VARIANCES IN THE REFERENCE MONUMENTS: FOUND STONE IN THE SOUTHWEST CORNER OF SECTION 1, TOWNSHIP 13 NORTH, RANGE 13 WEST, IN BLACK TOWNSHIP, POSEY COUNTY, INDIANA
- DISCREPANCIES IN RECORD DESCRIPTIONS AND PLATS: THERE ARE NO KNOWN DISCREPANCIES
- INCONSISTENCIES IN LINES OF OCCUPATION: THERE ARE NO KNOWN INCONSISTENCIES
- RANDOM ERRORS IN MEASUREMENT (THEORETICAL TO RANDOM ERRORS OF MEASUREMENTS) OF THE CORNERS OF THE SUBJECT TRACT ESTABLISHED THIS SURVEY (10.10 FEET) AS DEFINED IN IAC 865-1-1-1

IN WITNESS WHEREOF, THIS SURVEY AND THE PLAT HEREON WERE PREPARED UNDER MY SUPERVISION AND ACCORDING TO THE APPLICABLE REQUIREMENTS OF 865 IAC 1-1-2.

**Attachment 5. Area of Potential Effects**

You are required to provide two attachments regarding the Determination of Effect: Areas of Potential Effect and Mitigation of Effect (if applicable).

**Areas of Potential Effect Guidelines:**

**a. Describe the APE for direct effects and explain how this APE was determined.**

The APE for direct effects is limited to the area of potential ground disturbance and any property, or any portion thereof, that will be physically altered or destroyed by the Undertaking. On November 24, 2008, the FCC further clarified that the APE-Direct Effects is limited to the proposed lease area including the access route and utility corridor. EBI Consulting completed a field survey on February 19, 2016 and determined that the APE for direct effects consists of the 100' by 100' (22.9m by 22.9m) lease area, and the proposed access/utility easement. The total area of currently unimproved ground to be disturbed is approximately 0.315 acres (0.128 ha).

**b. Describe the APE for visual effects and explain how this APE was determined.**

The APE for visual effects is the geographic area in which the Undertaking has the potential to introduce visual elements that diminish or alter the setting, including the landscape, where the setting is a character-defining feature of a historic property that makes it eligible for listing on the National Register. The presumed APE for visual effects for construction of new facilities is the area from which the tower will be visible: a. Within a half mile from the tower site if the proposed Tower is 200 feet or less in overall height; b. Within 3/4 of a mile from the tower site if the proposed Tower is more than 200 but no more than 400 feet in overall height; or c. Within 1 1/2 miles from the proposed tower site if the proposed Tower is more than 400 feet in overall height.

Due to the height of the proposed tower, the presumed APE for visual effects for this project is a 3/4-mile radius from the tower site.

**Mitigation of Effect Guidelines:**

In the case where an Adverse Visual Effect or Adverse Direct Effect has been determined you must provide the following:

**a. Copies of any correspondence and summaries of any oral communications with the SHPO/THPO and any consulting parties.**

As of the date of this report, there has been no correspondence with the SHPO/THPO.

**b. Describe any alternatives that have been considered that might avoid, minimize, or mitigate any adverse effects. Explain the Applicant's conclusion regarding the feasibility of each alternative.**

No adverse effects are expected as a result of the proposed facility; therefore, alternatives that might avoid, minimize, or mitigate any adverse effects need not be considered.

**For each property identified as a Historic Property in the online e-106 form:**

**Indicate whether the Applicant believes the proposed undertaking would have a) no effect; b) no adverse effect; or, c) an adverse effect. Explain how each such assessment was made. Provide supporting documentation where necessary.**

Attachment 6. Tribal and NHO Involvement

**At an early stage in the planning process, the Nationwide Agreement requires the Applicant to gather information from appropriate Indian Tribes or Native Hawaiian Organizations (“NHOs”) to assist in the identification of Historic Properties of religious and cultural significance to them. Describe measures taken to identify Indian tribes and NHOs that may attach religious and cultural significance to Historic Properties that may be affected by the collocation within the Areas of Potential Effects (“APE”) for direct and visual effects. If such Indian tribes or NHOs were identified, list them and provide a summary of contacts by either the FCC, the Applicant, or the Applicant’s representative. Provide copies of relevant documents, including correspondence. If no such Indian tribes or NHOs were identified, please explain.**

EBI Consulting filed the proposed undertaking on the FCC’s Tower Construction Notification System (TCNS). The attached FCC Notification email lists the Tribes identified through the TCNS process. Follow up correspondence, when necessary, will be completed via the methods listed on the attached email considered acceptable to each Tribe.

**Subject:** NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION - Email ID #4496475

Dear Sir or Madam:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the information you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter).

Persons who have received the information that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The information you provided was forwarded to the following Tribal Nations and NHOs. If a Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Declaratory Ruling released on October 6, 2005 (FCC 05-176).

1. THPO & Tribal Anthropologist Dianne Desrosiers - Sisseton-Wahpeton Oyate of the Lake Traverse Reservation - (PO Box: 907) Sisseton, SD - virginia.m.w.oboyle@gmail.com; SWO\_TCNS@swo-nsn.gov - 605-698-3584  
Details: The Sisseton-Wahpeton Oyate required method of consultation is digitally through our website.  
<http://sisseton.heritageconsultation.com>

All projects must be processed through our website. We do not accept paper or emailed submissions.

Our tribe requires the Cultural Resource or Archaeological Survey Reports completed for the project, such as the Class III Cultural Resource Inventory Report if done, or at least a Class I Cultural Inventory if fieldwork was not required. This report should include ALL identified sites within the designated area of potential effect. This includes NOT ONLY the listed and eligible sites; we want the unevaluated, undetermined, and recommended not eligible sites as well.

This report should include the previously located cultural resource designation, distance from the project, and National Register eligibility determination, if a determination has been made. No determination is fine if the site has not been evaluated, but we still want to see the information on these sites. Please include the resource type, such as historic irrigation, homestead, lithic scatter, burial mound, etc.

The Tribe charges a review fee in the amount of \$400 for processing each request, including colocations, since we were not at the table to begin with on these colocation projects, we want to make sure we have the opportunity to look at these now and get that history known.

This paragraph only applies to Positive Train Control Projects submitting multiple PTC towers using the FCC batching method. The Tribe charges \$400 for the first nonexcluded PTC tower in the batch, plus \$250 for each additional nonexcluded tower listed under one TCNS number.

Payments can be made by check or money order, made payable to the Sisseton Wahpeton Oyate THPO Office and mailed to PO Box 907, Sisseton, South Dakota 57262. Please include the TCNS in the memo line of your check so that your payment is applied to the correct project.

If you have any questions or need more information, our current compliance officer is Alicia Cloud. She can answer project specific questions and track project payments. Her office phone number is 605 698 8306 and her email is SWO\_TCNS@swo-nsn.gov

2. THPO Thomas Parker - Omaha Tribe of Nebraska - 100 Main Street (PO Box: 368) Macy, NE - thomaslp99@yahoo.com - 402-837-5391

Details: If the Applicant receives no response from the Omaha Tribe of Nebraska within 30 days after notification through TCNS, the Omaha Tribe of Nebraska has no objection to project, however, the Omaha Tribe will show no interest in participating in pre-construction review for the site. The Applicant, however, must notify the Omaha Tribe of Nebraska in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

Details: Effective January 2016

ELECTRONIC TRANSFER OF MATERIALS - The Lac Vieux Desert Band of Lake Superior Chippewa (Getegitigaaning Ojibwe Nation) will go paperless.

To enable us to participate fully, Lac Vieux Desert (Getegitigaaning Ojibwe Nation) fee for such services is \$500. The fee must be submitted so that the research can be done. This will be the only item received in our office via regular USPS mail or other appropriate carriers.

At that time we will review and make our determinations with the appropriate information that we have on file with our Tribe pertaining to this area and an email response will go to the designated person at that agency.

All Collocation Projects will be handled in the same manner as new projects UNLESS the Getegitigaaning Ojibwe Nation commented on the original project.

The following information shall be emailed for each project to gmartin@lvdtribal.com . The information must contain summary of the proposed ground disturbing activity, legal description of the Area of Potential Effects, (APE), Topo maps identifying the proposed area, and copies of any studies that have already been conducted regarding cultural resources and archaeology in their full format, including reports on archaeological and cultural sites identified to the email address below. All responses and tower project closures will be emailed back to the appropriate contact person for your agency.

Should you have any questions, please feel free to contact me at 906-358-0137.

**IMPORTANT NOTES:**

"Collocation means the mounting or installation of an antenna on an existing tower, building, or structure.." The Quapaw Tribe does NOT consider a build which will occur off an existing structure a collocation. Ground disturbance is ANY event which will involve ground disturbance. Guy lines, disturbance of previously disturbed soil, the creation of trails to a site, the expansion of a fence are all examples of ground disturbance. ANY instance where the ground is being disturbed is considered ground disturbance.

Correspondence from the TCNS system received after initial filing is not "Automated". This correspondence is generated individually as written by the Quapaw Tribe Historic Preservation Office; using the TCNS system as a delivery method. This message is your notice of what is required by the Quapaw Tribe Historic Preservation Office to receive a determination from the Quapaw Tribe.

Determinations will be issued within 30 days of receipt of review fee payment. Reviews will not be issued or finalized until after payment has been RECEIVED if other arrangements have not been agreed upon. A lack of proper planning, payment, or correspondence by your organization do not constitute an emergency for others. Please do not hinder your client's review period times and cause unnecessary difficulties during the review process by not following the established guidelines and preferences for consultation.
