**WARREN COUNTY MISSOURI  
EMERGENCY MANAGEMENT AGENCY**

**November 14, 2016**

**Federal Communication Commission  
445 12<sup>th</sup> Street SW  
Washington, DC 20554**

**Dear Sir/Madam:**

**Warren County Emergency Management Agency was recently awarded a Radio Grant by the State of Missouri Emergency Management Agency (SEMA) for an in vehicle 700 MHz repeater for use on the Missouri Statewide Interoperable Communication System (MOSWIN).**

**In order to legally operate on this system, we need to be licensed by the FCC to do so, Therefore I am requesting a new license to allow for operation in the 700 MHz Band.**

**This new license will allow the Warren County Emergency Management Agency the ability to have interoperable communication between emergency response agencies responding to catastrophic accidents/disasters or planned events to work effectively together to protect Lives and property utilizing the Missouri Statewide Communication System.**

**Sincerely,**

A handwritten signature in black ink, appearing to read "Michael Daniels", with a long, sweeping horizontal line extending to the right.

**Michael Daniels  
Director**
