May 31, 2016

Federal Communications Commission
Land Mobile Licensing Division
1270 Fairfield Road
Gettysburg, PA 17325

Subject: Request for an 800 MHz Special Temporary Authorization (STA) to support operations in Philadelphia for the 2016 Democratic National Convention (DNC), FRN 0003178472.

To whom it may concern:

Per FCC Rule Title 47, 1.931, our office (FRN 0003178472) is requesting this STA to support the DNC communications and operations in Philadelphia this summer, for the period of July 10 to August 10, 2016. Our office is planning on deploying a temporary COW (cell on wheels) from the Zincoff Blvd, location next to the Wells Fargo building (NAD3 coordinates 39-54-00.0N 075-10-12.0W), transmitting on 857.6375 MHz FB2, 812.6375 MHz MO, to support in building coverage at this location.

Currently, our office is licensed on these frequencies per WQVX455 located at the Philadelphia Municipal Services Building (NAD coordinates 39-57-15.5N 075-09-51.6W), approximately six kilometers away; however we will have this transmitter disabled at least for the duration of our current subject STA request.

Thank you and best regards,

A handwritten signature in blue ink that reads "C. K. Leto".
